Number Bang

Place number words in paper bag. Without looking, the student picks a card from the bag. If the player can read the card properly, he/she can keep it. If not, the card goes back in the bag and the bag is passed to the next player. If a "BANG" card is drawn, that player must put all his/her cards back in the bag and loses all cards. (Keep the "BANG" card out once it is drawn from the bag.) Play continues until the bag is empty. The player with the most cards, wins.
